The Problem in Mental Health

What's Going On?

Widespread Distress

32 % of U.S. adults reported clinically significant anxiety or depression (42% for gen-z) while 1/6 people world-wide struggle with loneliness.

Care Accessibility

Traditional therapy is often expensive or stigmatized, creating a gap for accessible, tech-enabled support. Soul nests meets this need with a **private, stigma-free digital space** available 24/7.

Fragmentation of Services

How does it make sense for someone who is already struggling with mental health, to juggle 5+ different apps all the time?

40%

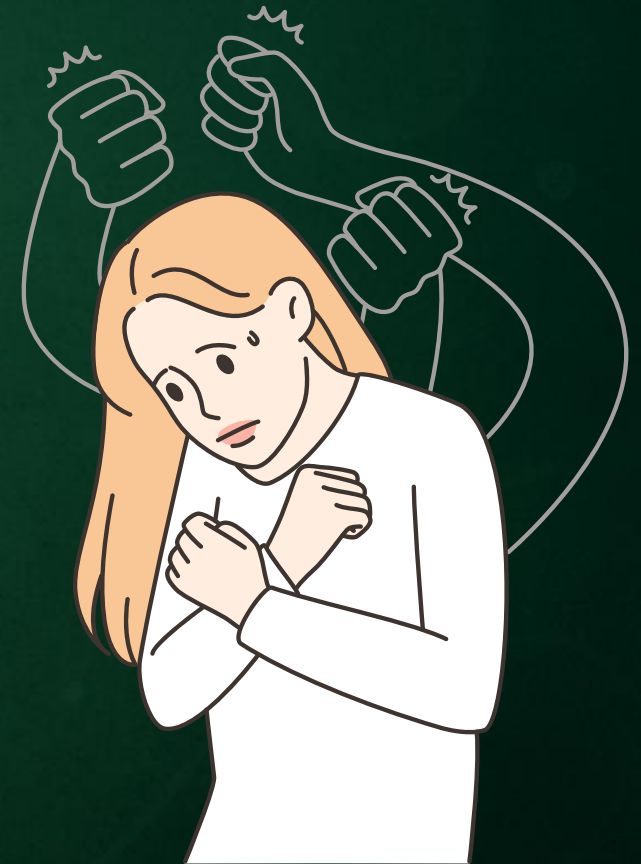

of high school students
report feeling persistently
sad and hopeless

122M+

Americans live in a
mental-health provider
shortage area

20,000+

mental-health apps crowd
the market, yet no single
home for healing

This is awesome! I like the generalized approach you took with it. It's not just a journal but an all in one kinda of deal. Really cool! Big fan of the personality quiz, makes it feel more personalized to you.

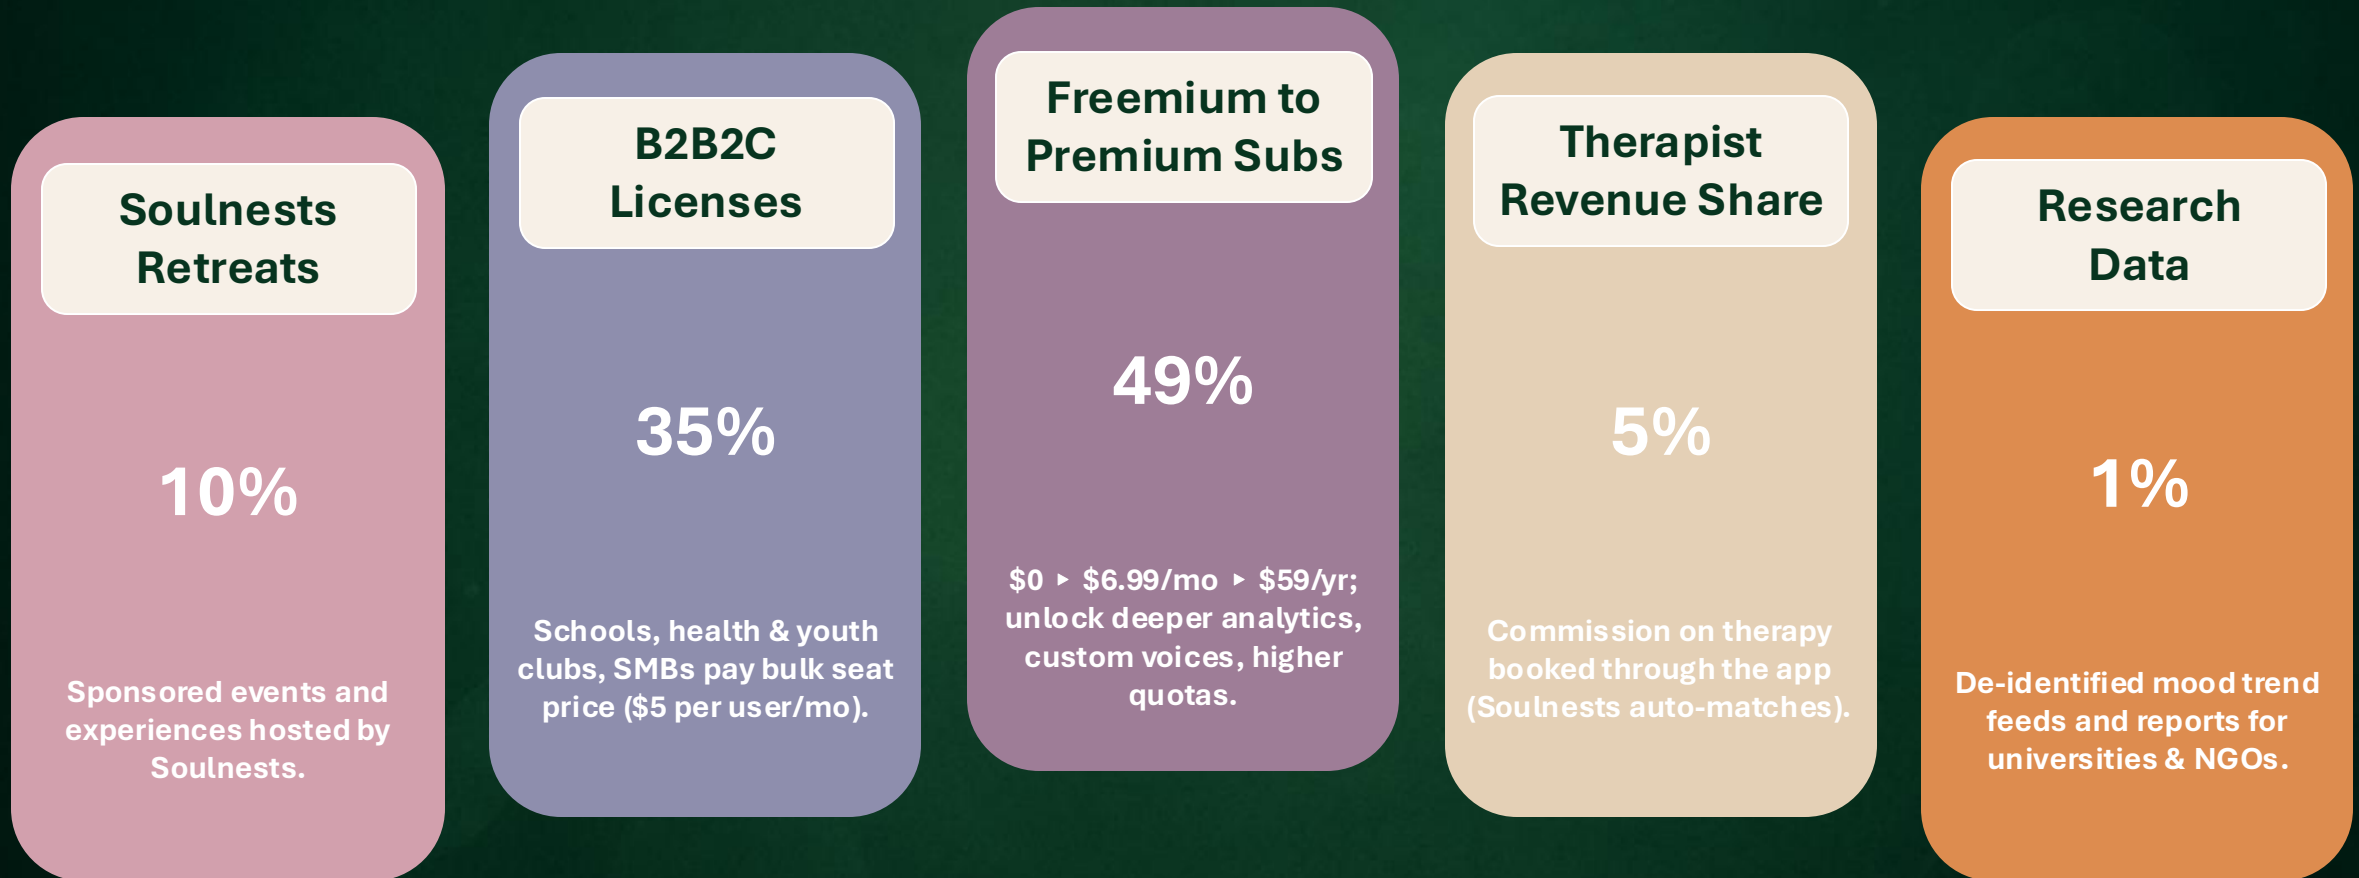

Awesome it worked thanks.. how much will this be when it hits the app store .. and as well .. will your ai have a voice as well .. great app I gave it to my teen daughter with anxiety to use it's so cute and sweet 😊

Fantastic do you mind if I like your site to my website? I have an area where people can find resources and tools?
