

ABOUT ME

AI-native Google DeepMind Hackathon Winner combining \$11B+ in IB/PE M&A transaction experience with hands-on AI engineering. Former Banker/Investor turned Techstars-backed Founder who has architected and built LLM-powered agents and workflows and evaluated 130+ private market deals. Proven ability to bridge technical feasibility and business viability, translating "boardroom strategy" into shipped code and 0→1 product execution. Looking to apply this "boardroom-to-code" fluency to drive strategy and innovation within a top-tier AI focused organization over the next several years.

TECHNICAL SKILLS

Languages & Platforms: React, TypeScript, Python, SQL (PostgreSQL), Object Storage, Google Cloud Platform, Vertex AI
AI/ML: OpenAI, Gemini, DeepSeek, Claude, OpenRouter, Llama, RAG, Orchestrator Architectures, Prompt and Context Engineering

EXPERIENCE

AI Researcher and Tester (Gemini API & AI Studio Early Access Program)

December 2025 - Current

Google, San Francisco, CA (Remote)

- Selected for exclusive Google Gemini Early Access Program – responsible for defining quality/latency/reliability metrics, building evaluation processes to compare model versions, and using findings to ship and iterate AI features in production products/prototypes

Founding Product & Lead AI Engineer (Techstars)

May 2024 - Current

DiDi Inc., Boston, MA (US-based Venture and Techstars-backed B2B AI Startup for Private Equity with \$440K 2025E Revenue)

- Develop and launch AI tools built on GCP and Gemini for investment due diligence and memos; cut memo first-draft time 70-90%
- Design RAG pipelines on Replit PostgreSQL; implemented hybrid search (semantic + keyword) to reduce hallucination rates by 40%
- Convert pilots to paid enterprise design-partners across 15 firms e.g., HIG, Moelis; create roadmaps from 110+ user/analyst interviews

Private Equity Associate

October 2023 - April 2024

Siguler Guff & Company, Boston, MA

- Evaluated and sensitized 50+ business and financial models of LMM private companies for co-investment opportunities
- Pitched 12+ investment ideas for a \$7.5B fund managed by 13 investment professionals
- Advised underlying companies and managers on strategic products and M&A expansion
- Led team's introduction to and integration of AI to optimize workflows and processes by building an internal product

Selected Buy Side Transaction Experience:

- \$50 Million fund of funds investment in fund's first software investment (Closed)
- \$20 Million majority investment in a supplier of windows, doors, and hardware for high-end custom homes (Closed)
- \$15 Million majority investment in a full-service elevator company (Closed)

Tech Investment Banking Analyst.

September 2021 - August 2023

SVB Securities, Boston, MA

- Created comps/precedents/LBOs and authored CIMs, teasers, board decks, owned model Q&A, NDAs and data room hygiene
- Supported 25+ sell-side mandate pitches (bake-offs): built market maps, buyer universes (150+ strategies & sponsors), valuation packs
- Partnered with MDs to pressure-test positioning (ICP, win/loss drivers, KPIs like NRR/GRR/margins) and anticipate diligence Q&A

Selected Sell Side Transaction Experience:

- \$8.0 Billion Infrastructure Software Transaction for a Sponsor (Closed)
- \$600 Million Facilities Management Software Transaction for a Sponsor (Closed)
- \$2.0 Billion Fintech Transaction for a Sponsor (Failed)

WM Analyst

June 2020 - September 2021

Morgan Stanley, Boston, MA

- Analyze public securities and capital markets to provide insights for clients and advisors
- Conducted portfolio analysis to ensure advisor and client alignment and provide insights and reports

PROJECTS

Full-Stack AI Products
